OFFICER TRAINING OPPORTUNITY

Through a grant funded by the Traffic Records Coordinating Committee (TRCC), Louisiana State Police is partnering with the Bossier Parish Sheriff’s Office to co-host a Crash Investigation I & II course from September 5th to 29th. These courses are free of charge, and will be taught by Northwestern University instructors. Registration is required and seating is limited to 36 students per course (2 students per course, per agency please). Contact Mabria Grosjean at MGrosjean@BossierSheriff.com to register. PLEASE NOTE: These courses are reserved for P.O.S.T. certified law enforcement officers only.

SAVE THE DATE!

TRCC STAKEHOLDER’S CONFERENCE
October 19, 2017
LSU Business Education Complex

The Highway Safety Research Group (HSRG) will be hosting the first annual TRCC Stakeholder’s Conference (formerly the LACRASH User’s Luncheon). Forthcoming details will be posted on our website under “News and Events.”
While HSRG staff members actively participate in the Association of Transportation Safety Information Professionals (ATSIP) Traffic Records Forum each year, 2017 marked a particularly special event for us because we helped host the event in New Orleans! Our Director, Dr. Cory Hutchinson, served as the program chair, and notably planned the most well-attended Forum to date. A number of HSRG staff members presented their work on topics including data mining, mapping drunk driving, factors impacting seatbelt usage, troubleshooting issues with data integration within Traffic Records Coordinating Committees, understanding drugged driving, data visualization, and the automation of data quality. HSRG staff participated in a host of discussions that will ultimately benefit the way that the HSRG collects, analyzes, and publishes its data, and we are looking forward to applying takeaways from those discussions to our work in the near future!
HSRG IN THE TRAFFIC SAFETY COMMUNITY

Award-Winning in New Orleans!
Please join us in offering HSRG director Dr. Cory Hutchinson congratulations for being awarded the 2017 Scott Falb Exceptional Service Award from the Association of Transportation Safety Information Professionals (ATSIP). He was recognized for both his years of service to ATSIP and for going above and beyond as the program chair for the 2017 Traffic Records Forum in New Orleans.

Previewing ScenePD in Boise!
Dr. Cory Hutchinson and Eric Newman traveled all the way to Idaho to preview PAE’s newest version of ScenePD. While there, they made recommendations and offered suggestions for the program’s forthcoming update, in the hopes of integrating the new version’s updates into future versions of LACRASH.

Presenting Research in San Diego!
Dr. Jeff Dickey and Bethany Campbell presented their poster “Louisiana Recorded and Predicted Crash Rate by Zip Code” at the 2017 ESRI Conference in San Diego. There they had the opportunity to present their research to other GIS professionals and to learn new techniques for mapping and analyzing highway crashes.

Serving Agencies in Houma!
David Whitchurch and Eric Newman attended the 2017 Louisiana Association of Police Chiefs Conference in Houma, LA! While exhibiting at the conference on behalf of HSRG, our staff members made themselves available to the chiefs to discuss agency needs, resources, and suggestions related to LACRASH.
