CRASH CIRCUMSTANCES AND CONDITIONS																																											
First Harmful Event						202		Location of First Harmful Event						105		Manner of Crash						000																					
Non-collision		100 Cargo/equipment loss or shift				205 Collision with railway vehicle (train, engine)				100 Gore				104		000 Not a collision between two motor vehicles in transport				200 Front to front - head on																							
		101 Fell/jumped from motor vehicle																						001 Acceleration or deceleration lane				101 Movement prior to crash				300 Front to rear - rear end											
		102 Fire/explosion																																		102 Vision obstructions				400 Backing - rear to front			
		103 Immersion, full or partial																																									
104 Jackknife				102 Driveway access or related				103 Backing - rear to side																																			
105 Overturn/rollover												103 Entrance/exit ramp or related				104 Vehicle condition				502 Sideswipe - opposite direction																							
106 Thrown or falling object				104 Intersection or related				105 Road surface																505 Sideswipe - same direction																			
198 Other non-collision harmful event												106 Railway grade crossing				106 Roadway condition				980 Other																							
Collision with Non-Fixed Object		200 Collision with animal (live)				107 Shared-use path or trail				107 Lighting condition														999 Unknown																			
		201 Collision with motor vehicle in transport												108 Through roadway				108 Weather condition																									
		202 Collision with parked motor vehicle				980 Other location within an interchange area (median, shoulder, and roadside)				109 Traffic control																																	
		203 Collision with pedalcycle (including bicycles)												999 Unknown				110 Non-motorist condition																									
		204 Collision with pedestrian				Intersection Geometry				102												School Bus Relation				000																	
		205 Collision with railway vehicle (train, engine)												100 Angled / skewed				000 No																									
		206 Collision with object at rest from MV in transport				101 Roundabout / traffic circle				100 Yes, school bus directly involved																																	
		207 Collision with falling/shifting cargo or anything set in motion by MV												102 Perpendicular				101 Yes, school bus indirectly involved																									
208 Collision with work zone/maintenance equipment				Intersection Traffic Control				101																																			
209 Collision with farm equipment												000 No controls																															
297 Collision with other non-motorist				100 Signalized																																							
298 Collision with other non-fixed object												101 Stop -all way																															
Collision with Fixed Object		300 Collision with bridge overhead structure				102 Stop -partial																																					
		301 Collision with bridge pier or support												103 Yield																													
		302 Collision with bridge rail				970 Not applicable																																					
		303 Collision with cable barrier																																									
		304 Collision with concrete traffic barrier																																									
		305 Collision with culvert																																									
		306 Collision with curb																																									
		307 Collision with ditch																																									
		308 Collision with embankment																																									
		309 Collision with fence																																									
		310 Collision with guardrail end terminal																																									
		311 Collision with guardrail face																																									
312 Collision with impact attenuator/crash cushion																																											
313 Collision with mailbox																																											
314 Collision with traffic sign support																																											
315 Collision with traffic signal support																																											
316 Collision with tree (standing)																																											
317 Collision with utility pole/light support																																											
396 Collision with other post, pole, or support																																											
397 Collision with other traffic barrier																																											
398 Collision with other fixed object (wall, building, tunnel, etc.)																																											
399 Collision with unknown fixed object

NARRATIVE

Rev. 2024-1

CRASH NARRATIVE

The LACRASH software system is used by law enforcement agencies throughout the state of Louisiana to electronically capture motor vehicle accident reporting information.

LACRASH was developed to enhance the paper uniform motor vehicle traffic crash report form in the state of Louisiana. By electronically reproducing the crash report form, the LACRASH software allows officers to enter accident reporting information using a laptop in their patrol car or a desktop computer in their office. The electronic submission of the data helps to collect traffic crash reporting information in a timelier manner. With the added benefits of software edits, GPS devices, and card swipes, information collected using LACRASH is more accurate and complete.

Designed by the Center for Analytics & Research in Transportation Safety (CARTS) at Louisiana State University, the LACRASH system was initially released in December 2004 with a hand full of agencies going online January 1, 2005. As of October 2019, roughly 250 Louisiana law enforcement agencies were using LACRASH (~249 using version 2.0 SP1) with new and old agencies continually being added\upgraded as needed.

CARTS also analyzes the motor vehicle accident data and produces Louisiana Crash Data and Statistical Reports using data collected from the LACRASH application.

We invite you to browse our website to learn more about LACRASH. If you would like any additional information, please contact us at (225) 578-0366 or email us at lacrash@lsu.edu
